# YOUR NIL TAX CHECKLIST

It's that time of year again... **tax time!**  
Lucky for you, reporting your earnings from NIL activities is made simple with the help of TurboTax.

## Gather all your tax documents

- Forms that report your income for 2023.** This could include: W2s, Form 1099-NEC, Form 1099-K, and/or Form 1098-T from your university.
- Previous years tax return - if you filed with TurboTax last year, this information will already be in your account.*
- Collect any receipts for costs associated with your NIL work. If you paid for equipment to film social content or travel expenses for an appearance, you may be able to deduct those expenses.*
- Form 1098-E for student loan interest (if applicable)*

## Determine your filing status.

- Are you filing single, married filing jointly, or head of household?*
- Will a parent or guardian be claiming you on their taxes?*

**File with the help of a TurboTax Live Expert using your unique INFLCR code.** (Hint: this can be found in the INFLCR app!)
